

Progressive Turf **Greater Green™** 5-0-7

(For Professional Golf Course & Sports Turf Maintenance)

General Information:

Progressive Turf, LLC is the exclusive manufacturer of turf products utilizing the patented **Daniels®** technology for oilseed extraction. Oilseed Extract provides a unique base solution for the formulation of fertility products and amendments that are environmentally friendly, as well as safe and effective for all plants. When used as directed, Progressive Turf products provide the professional turf and landscape manager with a unique set of tools for developing and maintaining exceptionally high quality turfgrass.

Greater Green™ (5-0-7) is specially formulated to produce "exceptional" green color without excessive growth. **Greater Green™** promotes chlorophyll production and enzyme activity by its plant nutrient combination, and includes secondary and micronutrients in trace amounts (see web site for details) to support balanced growth. **Greater Green™** contains our unique Oilseed Extract base.

Application Recommendations:

Greater Green™ (5-0-7) is effective as a direct foliar application or fertigation type product. It may be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for

compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making broadscale general applications.

Greater Green™ provides a constant feed rate of 0.05 lb. of N and 0.01 lb. Fe per 1,000 sq. ft. (at weekly or biweekly intervals) when used at 12.8 fluid ounces per 1,000 sq. ft. per application. The rate may be doubled (24-26 oz. per 1,000 sq. ft.) for "curative" or "recovery" applications.

**For Commercial Use Only –
KEEP OUT OF REACH OF
CHILDREN**

Storage Information: Progressive Turf products should be stored in a climate-controlled environment between 50-90° F. Failure to follow storage guidelines may lead to crystal formation or product degradation.

Manufactured For:
Progressive Turf, LLC
5350 Ball Ground Highway
Ball Ground Georgia 30107

VOLUME 2.5 GALLONS (9.46 L)
NET WT. 25 POUNDS (11.25 KG)

Guaranteed Analysis:

Total Nitrogen (N)	5.00%
1.40% Ammoniacal Nitrogen	
2.70% Nitrate Nitrogen	
0.90% Urea Nitrogen	
Soluble Potash (K ₂ O)	7.00%
Sulfur (S)	1.00%
1.00% Combined Sulfur (S)	
Iron (Fe)	1.00%
1.00% Chelated Iron (Fe)	
Manganese (Mn)	0.40%
0.40% Chelated Manganese (Mn)	
Molybdenum (Mo)	0.0005%
0.0005% Soluble Molybdenum (Mo)	
	F1516

Derived From: Oilseed Extract, Ammonium Nitrate, Ammonium Sulfate, Urea, Potassium Nitrate, Iron EDTA, Manganese EDTA, Sodium Molybdate.

Specifications:

Weight Per Gallon 10.18 lb.
